WORK HISTORY

Multimedia/Web Support Specialist

California Teachers Association | November 2025 - September 2026

- Created chapter website documentation and guides to support ongoing content management and updates by web managers
- Edited strike and rally videos in Canva and DaVinci Resolve, incorporating graphics, captions, and platform-specific formatting for social media
- Updated Webflow, Framer, and WordPress websites with chapter actions, events, and multimedia content
- Captured photo and video content during strikes and other rapid-response events for digital and social channels

Graduate Research Assistant

Rochester Institute of Technology | August 2023 - May 2024

- Conducted UX/UI designer interviews to identify accessibility challenges and synthesize findings
- Analyzed job applications for accessibility-related keywords to identify patterns in accessibility requirements
- Evaluated websites and accessibility tools to compare usability, and support for accessible digital experiences

Digital UX Designer & Usability

The Hartford | May 2022 - August 2022 | Internship

- Researched agency roles within Small Commercial through stakeholder interviews to develop user archetypes and presented findings to the Small Commercial Digital team
- Designed and launched unmoderated usability tests to evaluate product experiences and synthesized findings into reports
- Designed and maintained a UX SharePoint site to centralize design resources for internal and external audiences

UX Researcher & Designer

Rochester Institute of Technology | May 2021 - August 2021

- Conducted discovery interviews with faculty and TAs to understand needs and expectations for a peer evaluation tool
- Synthesized interview feedback to identify user needs, pain points, and opportunities to improve evaluation workflows
- Redesigned and developed a peer evaluation tool based on research findings and stakeholder feedback

PROJECTS

EagleView: Usability Study

Group Project | 7 weeks

- Created heuristic evaluation report and test plan drafts
- Performed usability test with individuals through various tasks
- Compiled findings and suggestions for final report
